

14 January 2022

Dear all,

I'm contacting you with an update on the current COVID-19 situation at St Joseph's. As of today we have one further staff member who worked in the East Wing last weekend who has tested positive. That staff member is now isolating at home.

There are no new cases amongst our residents and all our residents appear symptom free at this time.

There is not much more to say other than to repeat that we are under the guidance of NSW Health and we are continuing to test our staff and residents to ensure that we are keeping everyone as safe as possible, and will ensure that we pick up any more positive cases as early as we can.

We will keep you informed if there are any developments, as we continue to execute our COVID-19 Emergency Response Plan.

Thank you for your continued understanding and support as we work through this challenging time.

Yours sincerely,

Penny Stanley
Manager – Aged Care
